

# BLACK BOX<sup>®</sup>

*The Source for Connectivity<sup>®</sup>*

## The easy way to enter the bar-code age.

### SYSTEM REQUIREMENTS

- IBM<sup>®</sup> PC or compatible with at least 192K memory
- EPSON<sup>®</sup>, OKIDATA<sup>®</sup>, or Hewlett-Packard<sup>®</sup> LaserJet Series II or III printer

## Utility I

Accurate, affordable bar coding helps you keep track of your inventory.

Works with most popular printers, including HP<sup>®</sup> LaserJet<sup>®</sup> models.

**Bar codes supported:** Interleaved 2 of 5, Codabar, UPC-A (12-digit format), EAN-8, EAN-12, Full ASCII Code 39, Code 39.

**NOTE:** Do you need Bar Code software for your Macintosh<sup>®</sup>, SCO UNIX<sup>®</sup>, XENIX<sup>®</sup>? Call Technical Support for our full line of software products.

*Call for quantity discount pricing.*

ITEM	CODE
Utility I (5 1/4")	TC510V
Utility I (3 1/2")	TC520V

## LabelRIGHT

Logos, pictures, symbols—import graphics to make your bar-code labels as impressive as they are accurate.

See it before you print it. The new WYSIWYG interface shows you on screen exactly how your label will look.

Use all the advanced features of the HP<sup>®</sup> LaserJet<sup>®</sup> Series III. Rotate text, scale fonts—use your imagination.

**Bar codes supported:** Zip+4, Codabar, Code 128, Code 11, Interleaved 2 of 5, UPC Shipping Container, UCC-128 Serial Shipping Container Code, UPC-A, -E, -EI, EAN-8/13 (with or without supplements), MSI/Plessey, Full ASCII Code 39, Code 39.

## What you see is what you get.
