Quadruple Speed CD Recorder

Record and store everything from backups to multimedia presentations—FAST!

Key Features

- ▶ Operates in 1X, 2X (double), or 4X (quadruple) speeds
- ▶ Record a 650-MB CD in a little over 15 minutes
- ▶ Three recording modes in one unit: Disc-at-once, Track-at-once, and Multisession

Specifications

Interface—SCSI-2

Power—100/120V or 220/240V

Size—4.5”H x 7”W x 13”D (11.4 x 17.8 x 33 cm)

Weight—8.2 lbs. (4.1 kg)

Overview

The unprecedented 4X speed of the Quadruple Speed CD Recorder is made possible by a newly developed optical head, spindle motor, high-speed signal processing LSI and exclusive control technology. This technology works with high-precision CDR discs that are resistant to write and read errors at 4X speed. The result is faster and more reliable than ever CD data recording.

To bring you the utmost in recording flexibility, the Quadruple Speed CD Recorder is compatible with all standard CD recording formats such as: CD-DA (Digital Audio) for music and other digital audio applications; CD-ROM (Read-Only Memory) for access to thousands of CD titles; CD-ROMXA (Extended Architecture) for simultaneous handling of

text, sound, and images; and CD-I (Interactive) for interactive multimedia home entertainment.

The CD-Recorder can be linked to a PC, Macintosh, or Workstation through an advanced SCSI-2 data transfer interface for super-fast handling of large volumes of data—including images.

The space-saving Recorder is only the size of a half-height 5 1/4 inch disk drive and plugs directly into the PC power supply, making it ideal for use as an internal drive or

a compact external drive.

The Windows software for the CD Recorder is used for creating, testing, and simulating both real and virtual ISO 9660 images for CD-ROM, and for creating CD audio and mixed-mode discs. It makes creating CDs a breeze, even for absolute beginners.

The Multimedia software gives you the capability to write to three additional disc formats: CD-ROM Mode 2 family, Macintosh HFS, and CDTV.

Ordering Information

This information will help you place your order quickly.

PRODUCT NAME	ORDER CODE
CD Recorder with Windows Software	CDR100A
CD Recorder with Multimedia Software	CDR200A
