The Source for Connectivity®

PCMCIA Cellular 14.4

The PCMCIA Cellular 14.4 makes mobile computing easier!

Key Features

- ▶ Connects to your cellular phone without an expensive phone adapter
- ▶ MNP® 10-EC ensures performance and reliability over cellular channels
- ▶ Error correction and data compression provide fast and accurate data

Overview

The PCMCIA Cellular 14.4 is the answer for today's mobile professional. Able to be directly connected to cellular phones using an optional cable kit, or over regular telephone lines, you can transmit and receive data and faxes from virtually anywhere! With a Motorola (or other popular phone), the PCMCIA Cellular 14.4 solution, including MNP 10-EC enables your cellular data calls to be much more productive in two ways. First, MNP 10-EC can boost cellular

performance over two times by adjusting to signal quality and line errors. Second, MNP 10-EC enhances the reliability of establishing and maintaining a cellular connection.

In normal landline use, with the built-in MNP 2-4/V.42 error correction and MNP 5/V.42bis data compression, your throughput can be up to 57.6 Kbps in DOS or Windows™.

The PCMCIA Cellular 14.4's full-sized 14.4 Kbps fax/data performance and

industry-standard error correction and data compression is the perfect way to stay productive on the road. A 16550 UART ensures maximum throughput under Windows and other multi-tasking environments. Installation software ensures effortless setup. The PCMCIA Cellular 14.4's stand-by and sleep modes save battery power by up to 60% when it's not in use. And it works with any PCMCIA 2.0 Type II, III, and Toshiba Type IV slot.

Specifications

Maximum Speed—Fax: 14.4 Kbps, Data: 14.4 Kbps

Operation—Full-duplex only

Connectors—PCMCIA Slot 2; RJ-11

Power—From laptop

Size—3.3"H x 2.1"W x 0.2"D (8.4 x 5.3 x 0.5 cm)

Weight—< 0.1 lb. (<.1 kg)

Ordering Information

This information will help you place your order quickly.

PRODUCT NAME	ORDER CODE
PCMCIA Cellular 14.4.....	MD0301A
Select one of the following cables:	
Cable for Motorola® phones.....	MC130A
Cable for Mitsubishi® and Diamond Tel®	MC131A
Cable for NEC	MC132A
