

Black Box would like to demonstrate 4 extension options available with the Mini CAT5 VGA extenders.

Mini CAT5 VGA extenders - 4 extension options

Our Mini CAT5 extenders come in both wall plate and traditional module form. These can be used together to form 4 possible connection options as seen in the diagrams below.

Additional to these options, the Mini Cat5 VGA extenders also has options for 2 and 4 port splitter transmitters.

The 2 port transmitter is AC600A and the 4 port transmitter is AC601A.

You can connect 2 or 4 AC504A-WP-R VGA wall plates or AC602A receiver module for VGA extension up to 152 metres on CAT5
